PROJECT GRANT AGREEMENT DATED: AUGUST 31, 1978 BETWEEN GOVERNMENT OF INDONESIA AND THE UNITED STATES OF AMERICA, ACTING THROUGH THE AGENCY FOR INTERNATIONAL DEVELOPMENT ("A.I.D.").

ARTICLE 1: The Agreement

The purpose of this Agreement is to set out the understandings of the parties named above ("Parties") with respect to the undertaking by the Grantee of the Project described below, and with respect to the financing of the Project by the Parties.

ARTICLE 2: The Project

SECTION 2.1. Definition of Project. The Project, which is further described in Annex 1, will consist of financing the foreign exchange and local currency costs of consultant services and training for Grantee's simple irrigation program. Such services are designed to assist the Grantee in planning and implementing Sederhana (Simple) irrigation systems including both the physical systems and the social infrastructure which are essential for adequate operation and maintenance of the systems.

Annex 1, attached which forms a part of this Agreement amplifies the above definition of the Project. Within the limits of the above definition of the Project, elements of the amplified description stated in Annex 1 may be changed by written agreement of the authorized representatives of the Parties named in section 8.3, without formal amendment of this agreement.

ARTICLE 3: Financing

SECTION 3.1. The Grant. To assist the Grantee to meet the costs (consultant services and training) of carrying out the Project, A.I.D., pursuant to the Foreign Assistance Act of 1961, as amended, [1] agrees to grant the Grantee under the terms of this Agreement not to exceed four million five hundred thousand United States ("U.S.") dollars ($4,500,000) ("Grant").

The Grant may be used to finance foreign exchange and local currency costs, as defined in sections 6.1 and 6.2 of services required for the Project.

SECTION 3.2. Grantee Resources for the Project

(a) The Grantee agrees to provide or cause to be provided for the Project all funds, in addition to the Grant, and all other resources required to carry out the Project effectively and in a timely manner.

(b) The resources provided by Grantee for the Project will be not less than the equivalent of twelve million two hundred thousand United States dollars ($12,200,000) including costs borne on an "in-kind" basis.

SECTION 3.3. Project Assistance Completion Date

(a) The "Project Assistance Completion Date" (PACD), which is August 31, 1983 or such other date as the Parties may agree to in writing, is the date by which the Parties estimate that all services financed under the Grant will have been performed and all goods financed under the Grant will have been furnished for the Project as contemplated in this Agreement.

(b) Except as A.I.D. may otherwise agree in writing, A.I.D. will not issue or approve documentation which would authorize disbursement of the Grant for services performed subsequent to the PACD or for goods furnished for the Project, as contemplated in this Agreement, subsequent to the PACD.

(c) Requests for disbursement, accompanied by necessary supporting documentation prescribed in Project Implementation Letters are to be received by A.I.D. or any bank described in section 7.1 no later than nine (9) months following the PACD, or such other period as A.I.D. agrees to in writing. After such period, A.I.D., giving notice in writing to the Grantee, may at any time or times reduce the amount of the Grant by all or any part thereof for which requests for disbursement, accompanied by necessary supporting documentation prescribed in Project Implementation Letters, were not received before the expiration of said period.

ANNEX 1

Amplified Description of the Project
(Same for Loan and Grant Agreement)

1. Purpose: To assist the Government of Indonesia (GOI) in planning, implementing, and operating and maintaining Sederhana irrigation schemes; in increasing Indonesia's food crops production, particularly rice production; and in increasing the income and employment opportunities in the rural areas of Indonesia.

2. Financing: The Project will be financed from funds provided both by A.I.D. and the Government of Indonesia. A.I.D. will provide in US FY 1978 up to $14,700,000 in loan funds under A.I.D. Loan No. 497-T-054 and up to $4,500,000 in grant funds under A.I.D. Grant No. 497-0252. These funds will assist the GOI in carrying out its Sederhana Program for fiscal years 1978/79 and 1979/80. In consideration of A.I.D.'s providing $19,200,000 in FY 1978 and FY 1979, the GOI agrees to provide not less than $12,200,000 making total funds available of $31,400,000 for the Project as described in the detailed Financial Plan (Table I page 8). This plan sets forth the estimated expenditures for the various components of the Project and the estimated implementation targets.

Subject to the availability of funds, an additional $10,300,000 of loan funds will be made available in US FY 1979 by amendment to this Agreement (still within the GOI FY 78/79). This would increase the loan amount to $25,000,000 and the grant amount remain the same at $4,500,000, thus making a total A.I.D. contribution of $29,500,000. At such time the GOI would provide an additional amount of not less than $8,500,000 for the Project making a total GOI contribution of $20,700,000. In such event the total contributions of A.I.D. and the GOI for the Project would be $50,200,000. This is detailed in Table II, page 9.

Subject to the availability of funds and the Agreement of the Parties, the Loan amount furnished by A.I.D. may be increased in subsequent years by $91,200,000 up to a total of $116,200,000 and the Grant amount may be increased by $8,700,000 up to a total of $13,-200,000. This proposed additional funding of $99,900,000 is intended to assist the GOI in the design and construction of approximately 120,000 ha. of major works and 110,000 ha. of the complementary tertiary program for Sederhana subprojects during GOI FY 79/80 and 80/81, together with other Sederhana activities. In event of this additional funding by A.I.D., the GOI would provide additional funding of $75,600,000 making a total GOI contribution for the Project of not less than $96,300,000. The combined contribution of A.I.D. and the GOI for the Project would then be $225,700,000 as is detailed in Table III, page 10.

Changes up to 30% may be made to line item amounts shown in the Financial Plans (Tables I and II) for this phase without formal amendment of this Agreement provided that A.I.D. approves any such changes in writing, and that the total A.I.D. contribution is not

increased or the Borrower's agreed contribution for this phase is not decreased below that shown on the applicable plan.

3. Project Duration: Funds from the A.I.D. loan and grant will be available from August 1978 through August 1983 in accordance with Section 3.3 of the Loan Agreement and Section 3.3 of the Grant Agreement. It is anticipated that funds provided in these Agreements will assist in the financing of the Sederhana Program activities in GOI FY 1978/79 and part of OGI FY 1979/80.

4. Targets: The consulting services and training components of the Project will assist in strengthening the capability of the GOI agencies concerned and the local private consulting and construction sectors to design and construct Sederhana irrigation facilities. The consulting services will be aimed primarily at on-the-job training for Indonesian government and local private sector technicians involved in the design and construction of Sederhana irrigation works. These consulting services are anticipated to be funded from the A.I.D. grant as shown in the Financial Plans. Assistance also will be provided to assist in upgrading GOI training facilities as to curriculum, equipment, training materials and training facilities. The consultants, who will assist the GOI in reviewing and recommending improvements in their training programs as well as the training for technicians from the local private sector, may be funded from the A.I.D. Grant. Local private sector training shall be administered by the DGFC and DGWRD. In-country training as well as any training equipment, facilities and/or training materials are expected to be funded in part from the A.I.D. Loan

Although the GOI had planned to construct irrigation facilities for 60,000 ha. under its Sederhana Program in GOI FY 79/80 with the assistance of funds provided by the A.I.D. Loan, the Loan funds if increased to $25,000,000 as set forth in Table II, are considered sufficient for construction of irrigation facilities for only 30,000 ha. The Sederhana irrigation facilities to be financed in part by A.I.D. Loan funds may include new irrigation systems, rehabilitation of existing irrigation systems, and/or extension of irrigation systems.

Loan funds will also assist in the design and construction of tertiary canals included in the Complementary Tertiary Program. Loan funding if increased to $25,000,000 as set forth in Table II, is provided for approximately 35,000 ha. of the 110,000 ha. within Sederhana subprojects for which tertiary canals are presently needed and which are not included in the GOI's Special Tertiary Program.

Loan and grant funds will be provided to assist the small farmers in the formation of water user associations, for the operation and maintenance (O&M) of tertiary systems, and for training of members and employees of water user associations in O&M. Training in O&M may also be provided to central and local government employees associated with O&M of Sederhana systems. In addition, A.I.D. loan funds may be used to finance clearing, leveling and draining land in preparation of forming paddies or shaping of the land for cultivation.

It is estimated that the farmers will contribute the equivalent of $2.9 million through their labor for paddy formation and land shaping. All areas for which A.I.D. funds are used for design, construction, water user associations, land clearing, and land leveling, must be included within the GOI's Sederhana Irrigation and Reclamation Program. However, consulting services will also be provided for the Borrower's Special Tertiary Program, approximately a third of which is comprised of Sederhana subprojects.

5. Complementary Activities: The funds being provided by this Loan Agreement and companion Grant Agreement will contribute to meeting the targets described in paragraph 2 above and as shown in the attached Financial Plans. In addition to these activities, the Borrower, with funds other than those being provided by this Loan Agreement and companion Grant Agreement, will carry out the following activities which are an integral part of the Borrower's FY 78/79 Sederhana Program: (a) construct the major works for new Sederhana irrigation systems covering an estimated 30,000 hectares; and (b) upgrade Sederhana irrigation systems serving approximately 90,000 hectares. In addition the Borrower during the next three or four years will construct tertiary irrigation and drainage systems for an estimated 360,000 hectares within existing irrigation systems (Special Tertiary Program). Approximately a third of this 360,000 hectares is within previously constructed Sederhana irrigation systems.

6. Project Management: The Project shall be managed by DGWRD and DGFC unless the GOI, by written notice to A.I.D., requests the transfer of responsibility for element(s) of the Project to another GOI agency. The design and construction of irrigation and drainage facilities down to the tertiary level shall be administered by the Directorate General of Water Resources Development (DGWRD) through the provincial public works, except that the Complementary Tertiary Program may be administered by the DGFC. The agricultural components of on-farm works and land clearing and preparation shall be administered by the DGFC through the provincial agricultural services. Both the DGWRD and DGFC shall coordinate their training programs with their respective training offices. The assistance to water user associations shall be administered by the DGFC who shall coordinate all assistance in this area with Departemen Dalam Negeri (Ministry of Home Affairs) and local government officials. Consulting services shall be provided under the grant and shall be administered by the Department having the primary responsibility for the services contracted. However, if a single contract is used to provide consulting services for both the DGFC and DGWRD, the DGWRD shall be the administrator of such a contract and shall be responsible for coordinating contractual matters with the DGFC.

7. Commodities: Purchase of commodities for activities supported under this loan is authorized. All purchases funded in part or whole under the loan must be mutually agreed upon by the Borrower and A.I.D.
